

Sunshine's Guardian "Angel"

Angel is a working search and rescue dog. She air-scents and is trained in wilderness, water and cadaver searches. She also does Pet Therapy in schools and with senior citizens. She has a nice pedigree for a working dog. Angel produces puppies suitable for service dogs, therapy dogs, search and rescue dogs, hunting dogs, excellent family pets, and for narcotic detection K-9's. Two of Angel's brothers are certified service dogs for people who are disabled, and some of her puppies are certified and working Therapy Dogs, and certified working Service Dogs. Angel has an exceptional temperament, and is my son's favorite pet.

Am CH Coalcreek Gimme A Break
